Vanadiumcorp Resource Inc.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
NINE MONTHS ENDED JULY 31, 2018 AND 2017
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Vanadiumcorp Resource Inc. (the "Company") was incorporated on October 23, 1980 under the British Columbia Business Corporations Act and is engaged in the acquisition and exploration of mineral properties in Canada.

The Company's registered office is Suite 400 – 1505 West 2nd Avenue, Vancouver, British Columbia, V6H 3Y4.

The Company's mineral property interests have not reached the development stage or commercial production. To continue exploration programs, maintain its mineral property interests and develop future projects beyond the exploration stage, the Company will need additional funding.

These consolidated financial statements have been prepared on the assumption that the Company is a going concern which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The Company has incurred significant losses and accumulated a deficit of \$38,262,358 as at July 31, 2018 (October 31, 2017 - \$36,189,495). The ability of the Company to continue as a going concern is dependent on obtaining the financing necessary to continue operations and, ultimately, on attaining profitable operations. Funding for operations is raised primarily through share offerings. No provision has been made in these consolidated financial statements for any adjustments to the carrying value of exploration and evaluation and other assets should the Company not be able to continue as a going concern.

During the nine months ended July 31, 2018, the Company raised funds from the exercise of warrants. Although there is no certainty, management is of the opinion that additional funding for future projects and operations can be raised as needed. If the Company is unsuccessful in obtaining adequate financing in the future due to prolonged economic decline, exploration activities will be postponed until market conditions improve. These circumstances and conditions may cast significant doubt about the Company's ability to continue as a going concern.

2. BASIS OF PRESENTATION

a) Statement of compliance

These interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") applicable to the preparation of these financial statements. These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting and follow the same accounting policies and methods of application as the Company's most recent annual financial statements. Accordingly, they should be read in conjunction with our most recent annual financial statements

The interim consolidated financial statements were authorized for issue by the Board of Directors on September 28, 2018.

b) Consolidation

These interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries Pro Minerals Ltd., Power Vanadium Corporation, Prosperity Minerals Corporation, and Prestige Mining Corporation, all Canadian companies. All subsidiaries are 100% controlled by the Company. Intercompany transactions and balances have been eliminated upon consolidation.

c) Basis of measurement, estimates, and significant judgments

The interim consolidated financial statements have been prepared on a historical cost basis and are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiaries.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
NINE MONTHS ENDED JULY 31, 2018 AND 2017
(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION – CONTINUED

c) Basis of measurement, estimates, and significant judgments – continued

In addition, the consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included.

These interim consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the interim consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Elements of these interim consolidated financial statements subject to material estimation uncertainty include:

Fair value measurements

In the preparation of these interim consolidated financial statements, management has estimated the fair value of financial instruments, for which there are no active markets. The fair value estimates are based on the best available information and experience of management. Future events or changes in circumstances may materially impact these estimates used in valuing assets and liabilities at year end.

Valuation of stock options and warrants

In the preparation of these consolidated financial statements, management has estimated the fair value of stock options granted and warrants issued in private placements based on the Black-Scholes option pricing model. Stock-based compensation in respect of stock options granted during the period is a non-cash expense. Option pricing models require the input of highly subjective assumptions including the expected price and volatility of the Company's stock. Changes in these subjective input assumptions can materially affect the fair value estimate of the Company's stock options granted and warrants issued during the year.

Elements of these consolidated financial statements subject to significant judgment include:

Significant judgments about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- i) going concern assessment;
- ii) consideration of exploration and evaluation asset impairment criteria;
- iii) the useful life and recoverability of property and equipment;
- iv) impairment of investments;
- v) recovery of amounts receivable;
- vi) the fair value model and the inputs used in the valuation of share-based payments; and
- vii) deferred income tax asset valuation allowances.

6. EXPLORATION AND EVALUATION ASSETS – CONTINUED

Quebec Properties

a) Iron-T Vanadium Project

As at July 31, 2018, the property covers approximately 8,515 Hectares (“Ha”), located in Isle Dieu, Lozeau, Comporte and Galinee Townships in the province of Quebec and was acquired through a purchase and sale agreement and through staking.

Pursuant to a purchase and sale agreement dated February 1, 2008, as amended February 24, 2009 and August 21, 2009, wherein the Company acquired 100% interest in 17 mining claims situated in central Quebec west of the mining centre of Matagami, in exchange for \$250,000 (paid) and 900,000 common shares (issued).

The vendors will receive a 3% net smelter return (“NSR”) royalty of which the Company may purchase at its discretion, 1½% of the net smelter return royalty for \$500,000. The Company also retains a first right of refusal on the balance of the net smelter return royalty.

During the year ended October 31, 2017, the Company entered into an agreement with Infinite Lithium Corp. to option out 60% interest in the Iron-T Vanadium project. The Company received 50,000 shares of Infinite Lithium Corp. at \$0.14 per share as part of the consideration. The agreement was terminated during the nine months ended July 31, 2018.

b) Lac Dore & Lac Dore North Vanadium Projects

As at July 31, 2018, the Lac Dore property covers approximately 672 Ha, and the Lac Dore North property contains a total of 30 mining titles, covering 519 Ha. Both properties are located in Lemoine and Rinfret Townships in the province of Quebec and were acquired through staking.

c) Chibougamau Copper/Gold Assemblage

As at July 31, 2018, the property covered approximately 5,173 Ha in the Chibougamau region in the Province of Quebec acquired through staking, purchase or option agreements. Pursuant to a purchase agreement dated July 8, 2004, wherein the Company acquired eight mining titles, the Company is committed to issue 50,000 shares upon receipt of the first positive geological report (no report to date). These eight claims are subject to a 2% NSR. The Company has the right to reduce this royalty to 1% by paying the vendor \$500,000.

Pursuant to a purchase agreement dated July 8, 2004, wherein the Company acquired twenty-four mining titles, the Company is committed to issue 50,000 shares upon receipt of the first positive geological report (no report to date). These twenty-four mining titles are subject to a 2% NSR. The Company has the right to reduce this royalty to 1% by paying the vendor \$500,000.

Pursuant to a purchase agreement dated August 25, 2004, wherein the Company acquired thirty-five mining titles, the Company is committed to issue 100,000 common shares upon receipt of a second positive geological report (no report to date) and 100,000 common shares upon receipt of a third positive geological report (no report to date). The claims are subject to a 3% NSR. The Company has the right to reduce this royalty by 1% by paying the vendor \$500,000 and an additional 1% by paying \$500,000.

Pursuant to a purchase agreement dated October 12, 2005, wherein the Company acquired four mineral claims, the Company was committed to pay \$2,200 on or before the second anniversary of the TSX-V approval (paid March 2, 2010) and issue 22,500 common shares on or before the second anniversary of TSX-V approval (issued March 2, 2010). These claims are subject to a 2% NSR. The Company has the right to reduce this royalty to 1% by paying the vendor \$110,000.

6. EXPLORATION AND EVALUATION ASSETS – CONTINUED

c) Chibougamau Copper/Gold Assemblage – Continued

Pursuant to a purchase agreement dated October 12, 2005, wherein the Company acquired five mineral claims, the Company was committed to pay \$2,800 on or before the second anniversary of the TSX-V approval (paid March 2, 2010) and issue 28,000 shares on or before the 2nd anniversary of TSX-V approval (issued March 2, 2010).

These claims are subject to a 2% NSR. The Company has the right to reduce this royalty to 1% by paying the optionor \$110,000.

During the year ended October 31, 2016, the Company wrote off \$288,865 in costs associated with this property, as the Company is moving away from copper/gold projects in order to concentrate on its vanadium interests, but still holds claims to the property.

Pursuant to an agreement dated September 6, 2017, the Company has granted exclusive right and option to an arm's length third party, to acquire up to 100% undivided interest in the surface and mining rights and mining claims of the Chibougamau project.

Under the terms of the agreement, the third party is able to acquire an 80% undivided interest (the "First Option") in the Cornerback project by:

- (i) making payments of an aggregate of \$200,000 to the Company as follows:
 - a. \$50,000 in cash on the Effective Date of the agreement, being September 6, 2017 (paid);
 - b. an additional \$50,000 in case on or prior to the date that is 12 months from the Effective Date;
 - c. an additional \$50,000 in cash on or prior to the date that is 24 months from the Effective Date;
 - d. an additional \$50,000 in cash on or prior to the date that is 36 months from the Effective Date; and
- (ii) incurring an aggregate of \$500,000 in expenditures on the Chibougamau project on or before the date that is 36 months from the Effective Date.

Additionally, if the third party has exercised the First Option, they will have the additional exclusive right and option (the "Second Option"), exercisable any time prior to September 6, 2021, to acquire an additional 20% undivided interest in the Cornerback project, for a total interest of 100%, by paying the Company an additional \$50,000 on or before September 6, 2021.

If at any time after the First Option has been exercised, commercial production commenced or announced, whichever occurs first, the third party shall make a one-time payment of \$250,000 to the Company in cash.

One the third party has exercised the Second Option, they shall grant the Company a 2% net smelter returns royalty on the Chibougamau project, which shall be subject to the right by the third party to repurchase one-half of the royalty (1%) for \$1,000,000 and a right of first refusal on the royalty, regardless of whether the third party has exercised its repurchase right.

During the year ended October 31, 2017, the Company received \$50,000 in option payments recognized in other items in the consolidated statements of comprehensive loss.

The third party also has the option to acquire 100% undivided interest in the surface and mining rights and certain mining claims for a cash payment of \$50,000 on or before September 6, 2021.

Research and development	\$ 180,821	\$ –

Research and development expenses mostly relate to fees paid to a Quebec-based industrial company, Electrochem Technologies & Materials Inc. ("Electrochem"). In February 2017, the Company entered into an agreement with Electrochem to collaborate on metallurgical and electrochemical technologies to produce vanadium electrolyte ("VE") directly from Vanadiferous Titaniferous Magnetite concentrate. The companies will collaborate to develop and commercialize efficient and environmentally friendly metallurgical and electrochemical processing technologies. The Company and Electrochem each have a 50% ownership interest in the intellectual property developed.

12. RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument and related risks. Those risks and management's approach to mitigating those risks are as follows:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's exposure to credit risk is in its cash and cash equivalents and receivables. Cash and term deposits are held with major brokerage houses and major banks in Canada, which are high credit quality financial institutions as determined by rating agencies. At July 31, 2018, the Company's receivables comprise of \$65,527 (October 31, 2017 - \$66,100) due from government agencies and \$14,599 (October 31, 2017 - \$10,783) due from related parties. Credit risk is determined to be low.

Currency Risk

The Company's functional currency is the Canadian dollar. There is low foreign exchange risk to the Company as the Company primarily operates within Canada.

Interest Rate Risk

The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates and its short-term deposits at prescribed market rates. The fair value of the Company's cash and cash equivalents are not significantly affected by changes in short-term interest rates. The income earned from bank accounts and short-term deposits is subject to movements in interest rates.

12. RISK MANAGEMENT – CONTINUED

Liquidity and Funding Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available capital in order to meet its liquidity requirements. Management maintains sufficient cash and cash equivalents to satisfy short-term liabilities in highly liquid investments.

Funding risk is the risk that market conditions will impact the Company's ability to raise capital through equity markets under acceptable terms and conditions.

Market Risk

All available-for-sale securities are subject to price and market volatility. The Company's does not currently hold any available-for-sale securities.

Classification of financial instruments

	July 31, 2018	October 31, 2017
Fair value through profit or loss:		
Cash	\$ 50,681	\$ 379,855
Short-term investments	23,000	23,000
Loans and receivables:		
Receivables	80,126	76,883
	\$ 153,807	\$ 479,738

Financial liabilities included in the statement of financial position are as follows:

	July 31, 2018	October 31, 2017
Non-derivative financial liabilities:		
Trade payables and other liabilities	\$ 307,517	\$ 223,221

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value as at July 31, 2018 and October 31, 2017:

13. CAPITAL MANAGEMENT

The Company currently manages its capital structure and makes adjustments to it, based on cash resources expected to be available to the Company, in order to support the planned exploration of mineral property interests. Management has not established a quantitative capital structure, but reviews on a regular basis the capital requirements of the Company relative to the stage of development of the business entity and mineral property interest and market conditions.

The Company currently is dependent on externally provided equity financing to fund its exploration activities. In order to carry out planned exploration and fund administrative costs, the Company will concentrate its capital plans to raise additional amounts as needed through equity placements. Management reviews the capital management approach on an ongoing basis and believes that this approach is reasonable given the current state of financial markets and the exploration industry. In the case of uncertainty over the ability to raise funds in current or future economic conditions, the Company would manage capital by minimizing ongoing expenses.

Other than circumstances arising from the global financial markets, there were no changes in the Company's approach to capital management for the nine months ended July 31, 2018, compared to the year ended October 31, 2017. The Company is not subject to externally imposed capital requirements.

14. CONTINGENCIES

A legal claim against the Company's directors, and numerous other parties, by the former CEO for wrongful dismissal and defamation during the Company's proxy contest in 2013 has been commenced. The action is considered to be without merit and the action is being vigorously defended. The outcome of this legal action is not determinable and an estimate of any contingent loss arising from this action cannot be made.

The former Chief Executive Officer, P. O'Brien, who resigned in 2013, has filed a wrongful-dismissal suit against the Company. The Company intends to vigorously defend this action and believes the claim is without merit. The outcome of this legal action is not determinable and an estimate of any contingent loss arising from this action cannot be made.

15. SEGMENTED INFORMATION

The Company operates in one segment – the acquisition, exploration and evaluation of mineral properties. As at July 31, 2018 and October 31, 2017, all the operations and assets were in Canada.

15. SUBSEQUENT EVENT

- a. Subsequent to July 31, 2018, 10,400,000 stock options expired unexercised.
